

Oils with Merv Appleton

Merv set up his own studio in Eastern Beach where he now operates and gives classes in both oils and acrylic to aspiring artists with all levels of experience.

Merv's style of work is representational impressionism, he has been heavily influenced by the French impressionist movement of Monet, Renoir, and Pissarro, along with Turner and more recently, English artists Fred Cuming and Peter Brown.

Merv will be showing us a seascape for the demonstration and the workshop will concentrate on composition and tonal values using the seascape.

The workshop can be done in oils or acrylics.

So bring brushes, paints and canvas or board to work on

Come and join us for a great morning.
