"Nicola is an artist known for her colourful expressive pastel landscapes. She is the Auckland rep for Pastel Artists NZ (PANZ) and teaches at Estuary Arts Centre in Orewa and from her home in Red Beach.

Soft pastels and oil pastels are a delight to work with. They're sticks of pure pigment combined with just enough binder and they're instantly satisfying to use. There's no waiting around for things to dry! They are perfect for so many styles, from careful hyperrealism to bold impressionism."

Nicola will show you how to produce beautiful skies, seas and trees, an introduction to oil pastels and soft pastels, using the different pastels, different papers and all sorts of different techniques.
